PROFILE

Direct-response marketer who owns the idea, the hook and the copy, then briefs the team that ships it. Since 2019 I've written and run cold paid-social funnels for founder-led and personality-brand offers: VSL funnels, opt-in and registration pages, live webinars, and sales pages for courses, communities and products. I take what the numbers say, turn it into angles and hooks, write the scripts and copy myself, and direct editors and AI production through to a finished ad. Before marketing I spent six years as a software engineer at TELUS and Accenture, which is where my habit of making decisions from data and shipping on schedule comes from.

US$700K	US$1M+	20+	2019
Sales reached at Radiantz Skin after the offer rebuild	Ad spend managed over the years	Creative, marketing & sales team members led	Running cold paid-social funnels since

EXPERIENCE

Digital Marketing Specialist / Funnel Strategist

2019 – Present

Learn247 Consulting

- Build cold funnels end to end for digital courses, online communities and live webinars: ad, opt-in or registration page, and autoresponder follow-up, optimized for ROAS.
- Write the ad copy, opt-in pages and video ad scripts, and brief the team that produces the creative.
- Concept, script and direct hook-driven video ads (AI spokesperson, AI UGC, testimonial, walkthrough and proof formats), testing multiple angles per offer.
- Lead creative, marketing and sales teams: a remote team of 20+ across creative production, campaigns, business development and project management.
- Managed over US$1M in ad spend over the years.

Marketing Strategist

Project-based

Radiantz Skin Manufacturing Incorporated

- Created and revised the offer strategy for a GMP & ISO-certified health and beauty manufacturer's private-label program.
- Helped grow sales to US$700K through a sharper offer, positioning and conversion path.

Systems Architect

2023 – Present

Curzzo

- Architected Curzzo, a marketplace where creators launch and sell paid communities and courses from day one; it now lists 37 communities, the top ones with 1.2k–1.7k members.
- Built offer and landing pages for personality-brand communities on the platform, including AI Creator Simplified (1,721 members).

Senior Software Engineer

2012 – 2018

TELUS / Accenture

- Led development teams building scalable applications using SQL, Python and Java.
- Reduced system downtime by 30% through troubleshooting and system optimization.
- Collaborated with cross-functional teams to design and implement user-centric features.

SELECTED FUNNELS (LIVE)

Curzzo	Community marketplace	curzzo.com/communities
AI Creator Simplified	Personality-brand offer page	curzzo.com/communities/ai-creators-simplified/landing
